For calenda	ar plan year 2021 or fiscal plan year beginning 01/01/2021	and endi	ing 12/31/2021			
Pension	Benefit Guaranty Corporation			inspection	on	

1 Current value of plan assets and liabilities at the beginning and end of the plan year. Combine the value of plan assets held in more than one trust. Report the value of the plan's interest in a commingled fund containing the assets of more than one plan on a line-by-line basis unless the value is reportable on lines 1c(9) through 1c(14). Do not enter the value of that portion of an insurance contract which guarantees, during this plan year, to pay a specific dollar benefit at a future date. Round off amounts to the nearest dollar. MTIAs, CCTs, PSAs, and 103-12 IEs do not complete lines 1b(1), 1b(2), 1c(8), 1g, 1h, and 1i, CCTs, PSAs, and 103-12 IEs also do not complete lines 1d and 1e. See instructions.

and 1i. CCTs, PSAs, and 103-12 IEs also do not complete lines 1d and 1e. Sec	e instructions.		
Assets		(a) Beginning of Year	(b) End of Year
a Total noninterest-bearing cash	1a		
b Receivables (less allowance for doubtful accounts):			
(1) Employer contributions	1b(1)		
(2) Participant contributions	1b(2)		
(3) Other	1b(3)		
C General investments: (1) Interest-bearing cash (include money market accounts & certificates of deposit)	1c(1)		
(2) U.S. Government securities	1c(2)		
(3) Corporate debt instruments (other than employer securities):			
(A) Preferred	1c(3)(A)		
(B) All other	1c(3)(B)		
(4) Corporate stocks (other than employer securities):			
(A) Preferred	1c(4)(A)		
(B) Common	1c(4)(B)		
(5) Partnership/joint venture interests	1c(5)

Independent Auditor's Report

To the Plan Administrator Brigham Young University-Hawaii Tax-Deferred Annuity Plan Laie, Hawaii

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We were engaged to perform audits of the financial statements of Brigham Young University- Hawaii Tax-Deferred Annuity Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits as of December 31, 2021 and 2020, and the statement of changes in net assets available for benefits for the year ended December 31, 2021, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA (ERISA Section 103(a)(3)(C) audit). As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency (qualified institution), provided that the investment information is prepared and certified to by the qualified institution in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Management has obtained certifications from qualified institutions as of December 31, 2021 and 2020, and for the year ended December 31, 2021, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Disclaimer of Opinion

We do not express an opinion on the accompanying financial statements of the Plan. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* section of our report, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the financial statements.

Basis for Disclaimer of Opinion

Prior to January 1, 2009, records were maintained at a contract, not a plan level; therefore, management has not maintained, and TIAA and CREF did not provide sufficient accounting records and supporting documentation relating to certain annuity contracts and custodial accounts issued to current and former employees, and supporting documentation is not adequate to assure the completeness and accuracy of the amounts included in the financial statements. Accordingly, we were unable to apply auditing procedures sufficient to determine the extent to which the financial statements have been affected by these conditions.

BDO USA, LLP, a Delaware limited liability partnership, is the U.S. member of BDO International Limited, a UK company limited by guarantee, and forms part of the international BDO network of independent member firms.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America (GAAP), and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is responsible for maintaining a current plan instrument, including all plan amendments. Management is also responsible for administering the Plan and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our responsibility is to conduct an audit of the Plan's financial statements in accordance with auditing standards generally accepted in the United States of America (GAAS) and to issue an auditor's report. However, because of the matter described in the *Basis for Disclaimer of Opinion* section of our report, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on these financial statements.

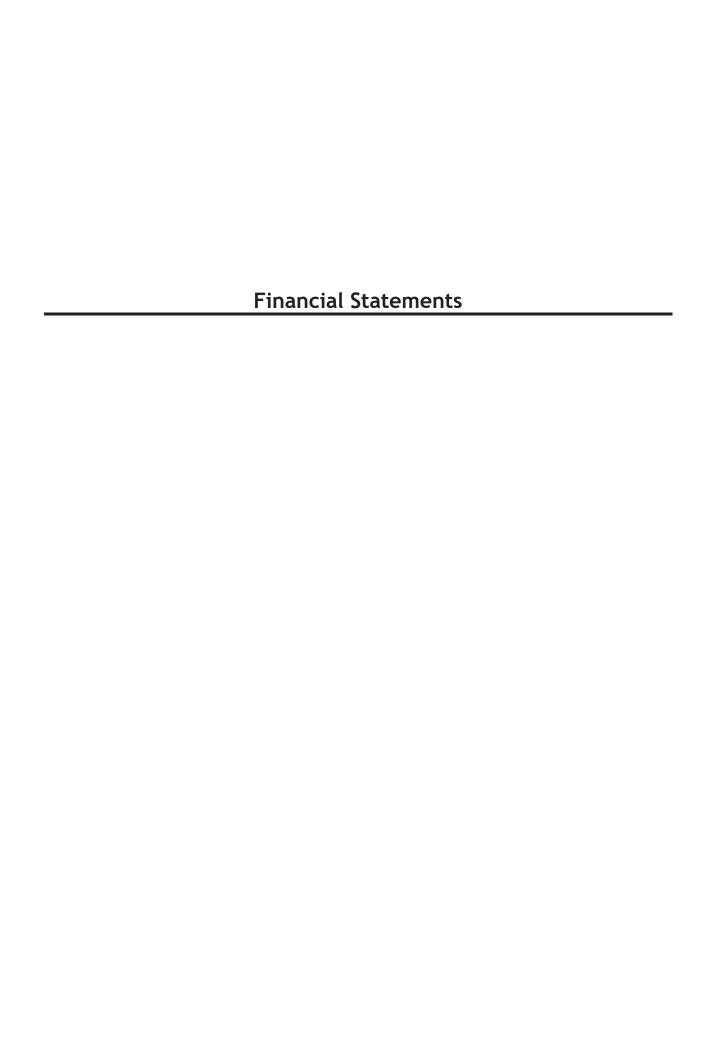

We are required to be independent of the Plan, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits.

Other Matter -Supplemental Schedule Required by ERISA

The supplemental schedule of assets (held at end of year) as of December 31, 2021 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* section of our report, it is inappropriate to and we do not express an opinion on the supplemental schedule referred to above.

Tax-Deferred Annuity Plan

Notes to Financial Statements

1. Description of the Plan

The following description of the Brigham Young University-Hawaii Tax-Deferred Annuity Plan (the Plan) provides only summarized information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all eligible employees of Brigham Young University-Hawaii (the Employer or Plan Sponsor). Eligible employees are those who have been officially hired by the Employer, with the exception of non-resident aliens, certain student employees, and employees that work fewer than 20 hours per week and less than 1,000 hours per year. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) and Section 403(b) of the Internal Revenue Code (IRC).

Custodian, Issuer and Administration of the Plan

The recordkeeper of the Plan is Teachers Insurance Annuity Association of America (TIAA). The custodians and issuer of the insurance products held in the Plan are TIAA and CREF (collectively, TIAA-CREF). The administrator of the Plan is the Employer. TIAA-CREF holds all assets of the Plan in accordance with the provisions of the service provider agreement with the Plan Sponsor.

Contributions

Each year, participants may elect to defer up to 100% of pre-tax annual compensation, as defined in the Plan document, subject to limits established by the Internal Revenue Service (IRS). Participants who have attained the age of 50 before the close of the Plan year may make "catch-up" contributions, also subject to limits established by the IRS. Participant contributions may also include, without limitation, transfers from other qualified defined benefit or defined contribution plans.

Vesting and Payment of Benefits

Participants are immediately vested in their contributions, adjusted for investment earnings and changes in investment values allocated thereto.

On termination of service, participants have the option of receiving a single lump-sum cash payment of benefits or an installment payment of benefits over a period of time not more than a single participant's single life annuity with a ten-year guaranteed period or a married participant's qualified joint and survivor annuity. Certain investments are subject to annual installment payments over a period of time as further described in Note 4, *Fair Value Measurements*. Payment of benefits may begin after the earliest of the following events: death or other severance of employment, disability, attainment of retirement age (65), attainment of age 59 ½, eligibility for a Qualified Reservist Distribution or termination of the Plan subject to Treasury Regulation 1.403(b)-10.

Notes Receivable from Participants

The Plan does not allow for notes receivable from participants. See Note 9, Subsequent Events, for subsequent amendment to allow for notes receivable from participants effective January 1, 2022.

Tax-Deferred Annuity Plan

Notes to Financial Statements

Participants' Accounts

Each participant's account is credited with the participant's transferred in and rollover contributions, participant contributions, and an allocation of net plan investment earnings and losses, and charged with distributions and expenses. The investment earnings or losses are allocated to each participant's account in the proportion that the balance of each participant's account bears to the total balance of all participants in each investment option. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct the investment of their account balance into various investment options offered by the Plan and may change their investment options at any time.

2. Summary of Significant Accounting Policies

Annual Reporting Requirements

Prior to January 1, 2009, TIAA and CREF maintained records at a contract, not Plan, level and administratively decided not to provide accounting records and supporting documentation at the participant or plan level relating to certain annuity and custodial accounts issued to current and former employees. As such, neither the Plan sponsor nor TIAA and CREF have been able to produce sufficient records and supporting documents relating to certain annuity and custodial accounts issued to current and former employees prior to January 1, 2009. As a result, the completeness and accuracy of the annuity and custodial accounts, related investment income, and distributions related to these accounts, if any, could not be determined.

Basis of Accounting

The Plan's financial statements are prepared on an accrual basis, pursuant to applicable accounting principles generally accepted in the United States (GAAP).

Use of Estimates

The preparation of financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value, except for fully benefit-responsive investment contracts, which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Employer determines the Plan's valuation policies from information provided by TIAA.

GAAP provides a fair value hierarchy that prioritizes inputs to valuation techniques used to measure estimated fair value. Estimated fair value measurement within levels 1-3 of the fair value hierarchy set forth in GAAP is based on the lowest level of input that is significant to the estimate. GAAP requires that valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs.

Tax-Deferred Annuity Plan

Notes to Financial Statements

The estimated fair values of registered investment companies (mutual funds) are based on quoted market prices (level 1 inputs). The estimated fair value of the non-fully benefit-responsive portion of the insurance company general account is calculated by discounting future cash flows based on the contract's expected yield (level 3 inputs). The contract value of fully benefit-responsive investment contracts represents accumulated contributions, adjusted for investment income, changes in investment value, benefits paid to the participant and administrative expense. The contract value is the relevant measurement attribute for the portion of net assets available for benefits in a defined-contribution plan attributable to fully benefit-responsive investment contracts, because contract value is the amount that participants would receive if they were to initiate permitted transactions under the terms of the Plan.

Purchases and sales of investments are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses for investments bought and sold as well as held during the year.

Contributions

Participant contributions are recognized in the period during which the Employer makes payroll deductions from the participant's compensation.

Payment of Benefits

Benefit payments are recorded as deductions when paid. At December 31, 2021 and 2020, there were no benefits requested that had not been paid.

Administrative Expense

Certain costs of administering the Plan and investment services are charged to participants by netting the expense ratio with the return of the individual investment. The expense ratios of the investments ranged from 0.30% to 0.87% for the year ended December 31, 2021. Net appreciation or depreciation in the fair value of investments as shown in the accompanying Statement of Changes in Net Assets Available for Benefits is net of such expenses, which amounted to \$24,876 for the year ended December 31, 2021.

Income Taxes

The Plan is exempt from federal income tax. However, GAAP requires the Plan Administrator to evaluate any tax positions taken by the Plan. In the unlikely event any income tax, related penalty and/or interest, including relative to uncertain tax positions (as defined in GAAP) taken by the Plan, are deemed probable of assessment, the Plan will record them as administrative expense.

Tax-Deferred Annuity Plan

Notes to Financial Statements

3. Information Certified by TIAA and CREF

The Plan Administrator has elected the method of annual reporting compliance permitted by ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, TIAA and CREF, qualified institutions, have certified that the following investment information included in the accompanying financial statements and ERISA-required supplemental schedule is complete and accurate:

- Investments as shown in the statements of net assets available for benefits as of December 31, 2021 and 2020;
- Investment income, net as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2021;
- Investment information included in the notes to financial statements; and
- Investment information included in the Schedule H, Line 4i Schedule of Assets (Held at End of Year) as of December 31, 2021, as shown on the ERISA-required supplemental schedule.

At the request of the Plan Administrator, the Plan's independent auditors did not perform auditing procedures with respect to this certified investment information, except for comparing the certified investment information with the related information presented and disclosed in the financial statements and supplemental schedule, reading the disclosures relating to the investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP and whether the supplemental schedule is in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

- Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2: Inputs to the valuation methodology include:
 - quoted prices for similar assets or liabilities in active markets;
 - quoted prices for identical or similar assets or liabilities in inactive markets;
 - inputs other than quoted prices that are observable for the asset or liability;
 - inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified contractual term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Tax-Deferred Annuity Plan

Notes to Financial Statements

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following are descriptions of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2021 and 2020.

Fixed Annuity Contracts: The non-fully benefit responsive ("NFBR") fixed annuity contracts composed of the TIAA Traditional Annuity Contracts, are reported at fair value which approximates contract value. Fair value is determined using a discounted cash flow model. The contract value equals the accumulated cash contributions and interest credited to the Plan's contracts, less withdrawals. The TIAA Traditional Annuity Contracts are not available for sale or transfer on any securities exchange. The fixed annuity accounts are subject to various restrictions. See further information below.

Pooled Separate Account: Units held in the pooled separate account ("PSA") are valued at the net asset value ("NAV") based on the fair market value of the underlying investments of the account less its liabilities. The NAV, as provided by TIAA and CREF, is used as a practical expedient to estimate fair value. The PSA holds between 15 percent and 25 percent of its net assets in investments other than real estate and real estate related investments, comprised of publicly traded, liquid investments. Determination of fair value of the real estate assets involves significant judgment. Valuation of the PSA's real estate properties are based on real estate appraisals, which are estimates of property values based on a professional's opinion and may not be accurate predictors of the amount the PSA would actually receive if it sold a property. Appraisals can be subjective in certain respects as they rely on a variety of assumptions (including comparable property sales and historic pricing) and conditions at that property or in the market in which the property is located, which may change materially after the appraisal is conducted. Among other things, market price for comparable real estate may be volatile, particularly if there has been a lack of recent transaction activity in such market.

Further, as the PSA generally obtains appraisals on a quarterly basis, there may be circumstances in the period between appraisals or interim valuation adjustments in which the true realizable value of a property is not reflected in the PSA's daily net asset value calculation or in the PSA's periodic financial statements. This disparity may be more apparent when the commercial and/or residential real estate markets experience an overall and possibly dramatic decline (or increase) in property values in a relatively short period of time between appraisals.

The PSA provides participants with a liquidity guarantee enabling the account to have funds available to meet participant redemptions, transfers, or cash withdrawals. TIAA guarantees that the participants can redeem their accumulated unit value determined after their transfer or cash withdrawal request is received in good order.

TIAA and CREF limited the ability of participants to transfer funds into the TIAA Real Estate Account. Specifically, individual participants are limited from making internal transfers into their account if, after giving effect to such transfer, the total value of such participant's account (under all contracts issued to such participant) would exceed \$150,000. A participant is not required to reduce his or her contract balance to a level at or below \$150,000 if the participant's account totals more than \$150,000.

Tax-Deferred Annuity Plan

Notes to Financial Statements

Registered Investments

Mutual Funds: Mutual funds represent investments with investment managers. The mutual funds are valued at the daily closing NAV as reported by the fund. Mutual funds held by the Plan are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Other registered investments: These investments are registered investments that invest principally in equity securities, fixed-income instruments and short-term investments in accordance with each portfolio's investment objectives. Units held in the registered investments are valued at NAV. The NAV, as provided by TIAA and CREF, is used as a practical expedient to estimate fair value. The NAV is measured based on the fair value of the underlying investments held by the fund less its liabilities. The fair values of the underlying investments are determined using market quotations or prices obtained from independent pricing sources that employ various pricing methods to value the investments including matrix pricing. Money market account holdings are generally valued at amortized cost. On a daily basis, units in these investments are revalued to reflect performance of the underlying investments minus any fees and charges.

Investments measured at the NAV as a practical expedient are summarized as follows:

	 air Value at ecember 31, 2021	-	Fair Value at December 31, 2020	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Multi-Asset (a) Equities (b) Fixed Income (c) Money Market (d) Real Estate (e)	\$ 105,261 2,382,407 157,763 12,583 139,294	\$	100,208 2,124,213 157,230 11,253 136,322	\$ - - - -	Daily Daily Daily Daily Daily	None None None
Total investments measured at NAV as practical expedient	\$ 2,797,308	\$	2,529,226	\$ _		

The investment objectives for the other registered investments measured using the net asset value are as follows:

- (a) Multi-asset: This fund primarily invests in domestic common stocks, mortgage-backed securities and municipal bonds that meet certain social criteria including specified environmental, social, and governance criteria.
- (b) Equities: These investments are primarily invested in domestic and foreign common stocks to meet a specified favorable long-term rate of return.
- (c) Fixed income: These investments are primarily invested in U.S. Treasury securities and mortgage-backed securities with high income yields, returns that are expected to outpace inflation or returns that are designed to track a specified inflation index.

Tax-Deferred Annuity Plan

Notes to Financial Statements

- (d) Money market: These investments are primarily invested in commercial paper, foreign government bonds, U.S. Government fixed income securities, U.S. Treasury debt and variable rate securities.
- (e) Real Estate: The investment objective of the TIAA Real Estate Account, the PSA offered by the Plan, is to seek long-term returns primarily through rental income and appreciation of real estate owned by the account.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's fair value measurements:

December 31, 2021		Total	Level 1	Level 2	Level 3
Fixed annuity contracts (NFBR) Mutual funds	\$	915,265 348,329	\$ - 348,329	\$ - \$ -	915,265 -
Total		1,263,594	\$ 348,329	\$ - \$	915,265
Investments measured at NAV as the practical expedient* Total investments at fair value		2,797,308 4,060,902			
	_				
December 31, 2020		Total	Level 1	Level 2	Level 3
December 31, 2020 Fixed annuity contracts (NFBR) Mutual funds	\$	Total 925,000 246,890	\$ - 246,890	\$ Level 2 - \$	925,000 -
Fixed annuity contracts (NFBR)	\$	925,000	\$ -	\$	
Fixed annuity contracts (NFBR) Mutual funds	\$	925,000 246,890	\$ - 246,890	 - \$ -	925,000

^{*} Certain investments that are measured at fair value using the NAV per share practical expedient have not been categorized in the fair value hierarchy. The fair value amounts presented in these tables are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of net assets available for benefits.

Tax-Deferred Annuity Plan

Notes to Financial Statements

Changes in Fair Value of Level 3 Assets

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes to economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another.

We evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits.

The following table sets forth a summary of certain changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2021:

December 31, 2021	Fixed Annuity Contracts
Purchases	\$ 3,449
Issuances	-
Transfers in	84,209
Transfers out	\$ (101,198)

Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

The following table represents the Plan's level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and the ranges of values for those inputs.

Instrument	12	Fair Value 2/31/2021	Principal Valuation Technique	Unobservable Inputs	Range of Significant Input Values
TIAA Traditional Annuity	\$	915,265	Discounted cash flow Theoretical transfer (exit value)	Risk-adjusted discount rate applied	3%-3.8%

Information related to significant, unobservable inputs used in the valuation of the Plan's level 3 investments at December 31, 2020, was as follows:

Instrument	Fair Value 12/31/2020		Principal Valuation Technique	Unobservable Inputs	Range of Significant Input Values	
TIAA Traditional Annuity	\$	925,000	Discounted cash flow Theoretical transfer (exit value)	Risk-adjusted discount rate applied	3%-4.45%	

Tax-Deferred Annuity Plan

Notes to Financial Statements

Fixed Annuity Contracts

As discussed above, fixed annuity contracts consist of investment options available to participants known as the TIAA Traditional Annuity Contracts ("Annuity"). Annuity contracts are established between the participants and TIAA, an insurance company registered in the state of New York. This investment option is offered in a variety of formats, including Retirement Annuities ("RA"), Retirement Choice ("RC"), Supplemental Retirement Annuities ("SRA"), and Group Supplemental Retirement Annuities ("GSRA"). The return of Annuity contributions plus interest to participants is subject to TIAA's claims-paying ability. Annuity accounts are credited with a guaranteed minimum rate of interest that is determined annually. Participants may also earn interest in addition to the guaranteed rate at the discretion of TIAA. Such discretionary interest, if any, is declared by TIAA on a year-by-year basis and remains in effect for the subsequent twelve-month "declaration year". Contributions to the Annuity accounts are grouped by TIAA into "vintages" comprised of premiums received over defined time periods of one or more contiguous calendar months. The interest crediting rate for each vintage is determined, in part, by the net investment earnings rate of the TIAA assets supporting that vintage, minus a charge for administrative expenses and an amount set aside for contingency reserves. Crediting rates are also determined by the performance of investments contained in TIAA's general account.

During the year ended December 31, 2021, the crediting rates of the annuity contracts range as follows:

	Range %
RA	3.00% to 3.80%
GSRA	3.00% to 3.05%
SRA	3.00% to 3.05%

RA account balances may only be withdrawn over 10 annual payments. RAs are not considered to be fully benefit-responsive investment contracts as defined by ASC 962, because this provision is considered to restrict participants' "reasonable access" to their contract balances.

SRAs and GSRAs are considered fully benefit-responsive investment contracts, because they are fully liquid and immediately cashable once a participant terminates employment with the Employer (unless they are pledged as collateral on Contract Loans) and are therefore reported at contract value. Contract value equals the accumulated cash contributions and interest credited to the Plan's contracts, less withdrawals.

5. Party-in-Interest Transactions

The Plan's investments are managed by TIAA and CREF; therefore, investment transactions with TIAA and CREF qualify as party in interest transactions as defined by ERISA. Such transactions are permitted under the provisions of the Plan and are exempt from the prohibition of party in interest transactions under ERISA.

Tax-Deferred Annuity Plan

Notes to Financial Statements

6. Plan Termination

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, the assets of the Plan would be distributed to the participants and beneficiaries of the Plan based on their account balances in the order provided by ERISA.

7. Tax Status

The plan sponsor adopted a prototype 403(b) plan document on January 1, 2009. The plan administrator and plan management believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. They believe that the Plan was qualified and the related trust was tax-exempt as of the financial statement date, therefore no provisions for income taxes has been included in the Plan's financial statement.

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8. Risks and Uncertainties

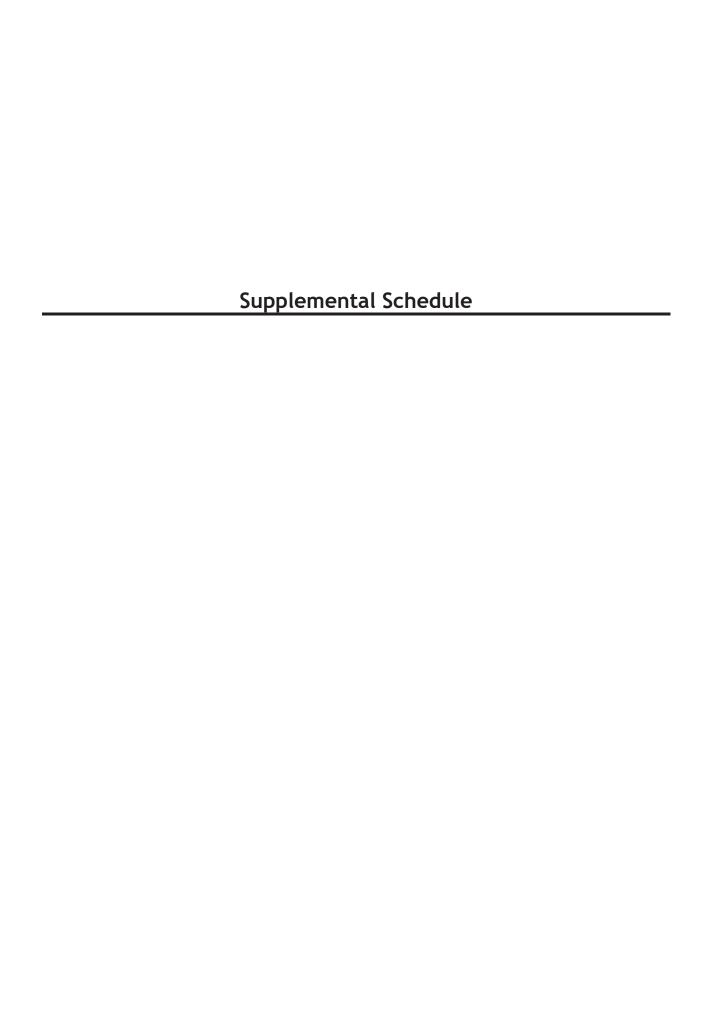

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

The macroeconomic impacts stemming from the conflict in Ukraine, and the potential impact and duration of the COVID-19 pandemic, continuing supply chain issues and rising inflation has continued to cause volatility in the markets. Any future impact on investments or the Plan remains uncertain.

9. Subsequent Events

Plan management has evaluated subsequent events through October 10, 2022, which is the date the financial statements were available to be issued. There were no events or transactions discovered during the evaluation that require recognition or disclosure in the financial statements other than those noted below.

Effective January 1, 2022, the Plan was amended and restated in its entirety to a Volume Submitter 403(b) Plan. There were no significant changes to plan provisions due as part of the restatement, except to allow notes receivable from participants. The volume submitter plan has received an opinion letter from the IRS on August 7, 2017 stating that the volume submitter plan is designed in accordance with the applicable sections of the IRC.

Tax-Deferred Annuity Plan
